Carburizing Agent For Calcining Anthracite

1,Performance parameters of Carburizing Agent For Calcining Anthracite

Fixed carbon	Ash	S	Volatiles	Water	Particle size	N
%	%	%	%	%	mm	%
≥95	≤4	≤0.3	≤1.2	<0.5	0.5-3	≤0.3

2. Introduction: Calcined anthracite carburizing agent is an additive of carbon for steelmaking and casting. Its quality is classified into special grade (FC ≥ 95%), first grade (FC ≥ 94%) and second grade (FC ≥ 93%) according to the high and low level standard of fixed carbon content. Among them, the super grade carburizing agent with fixed carbon content of more than 95% is comparable to the petroleum coke with FC of more than 98%, and its price is less than half of petroleum coke. It is a widely used substitute for petroleum coke in the world. The anthracite carburizer produced in Ningxia is welcomed by users all over the world

3. The characteristics of anthracite carburizer produced in Ningxia are as follows

1) High grade, FC content ≥ 95%, and the effect of carburizing is equivalent to that of petroleum coke

2) Anthracite carburizer has no effect on the chemical composition, inclusion, crystallinity, microstructure and mechanical properties of the steel. The qualified rate of the steel is 100%

3) Using anthracite instead of petroleum coke in steelmaking or casting can reduce production cost and improve economic benefit

4.Characteristics of high quality carburizer

1) The particle size is moderate, the porosity is large, and the absorption speed is fast

SHANDONG TAIRAN IMPORT AND EXPORT CO.,LTD

2) The chemical composition is pure, high carbon, low sulfur, and the harmful composition is trace

3) The product has good crystal structure and stable performance

5. Why choose us

Our company is specialized in the production and supply of anthracite carburizing agent. Product quality and company integrity are the company culture. We produce and supply more than 100000 tons of domestic and foreign customers every year. You are welcome to negotiate with us

6, Good feedback of product use effect, the products have been exported to South Korea, America, Oman

7, We are a professional supplier, who can provide customers with free product technology, use and other issues

Do you want to find a professional supplier of Carburizing Agent For Calcining Anthracite?

Do you want to find a stable and credible supplier?

Then please contact with us
